Monstrances

***7293**
"Gothic Monstrance"

Rich cut-out Gothic filigree open work executed on this "one of a kind" magnificent monstrance. The finial cross is adorned with amethyst cabochons.

The ornamentation features grape motif and images of the Twelve Apostles and Four Evangelists. Available in sterling silver and sterling silver with 24 Karat goldplate finish.

Letter from the Chairman

We are honoured to present you our 2008/2009 Artistic Silver catalogue. Special care and the devotion has been put when developing this catalogue to ensure that when it gets to you at the beginning of the season, you will have the most comprehensive tool ever for searching and finding the appropriate sacred vessel that suits your specific Liturgical environment when you are seeking only for perfection.

Browsing through the 96 pages of this catalogue, you will find the most impressive array of products that reflect the dynamic force that drives our company and our painstaking commitment to providing you with products of the highest possible quality made by skilled craftsmen inside our workshops of central Madrid.

Please review this user-friendly catalogue and you will learn a bit more from our company's heritage and history which will help you understand why only our products are worthy of bearing proudly the AS symbol. A mark that has long been synonymous for exquisite design, first class craftsmanship and enviable service.

Let us remind you that besides our catalogue items, of outstanding quality and value, we have long been specialized in designing and handcrafting the best custom metal work to meet your specific needs. With thousands of professional restoration jobs of all sorts of religious artefacts behind our backs, we are also proud to offer you the best restoration service available in the sector.

Let us enrich your Liturgical environment. Our long tradition and proven expertise handcrafting only quality metalware items for the Christian Church, spread across the Cathedrals, Churches and Parishes of the five continents can assure that you will be most satisfied with our products and services.

Our international network of specialized dealers will give strive to provide you with the kind of professional and personalized attention you deserve to meet all your needs for the celebration of the Liturgy.

Luis Molina Acedo
President

...Quality silversmiths since 1939

In 1939, after the Spanish Civil War, Luis Molina Acedo started working as an apprentice silversmith in the Plata y Bronce workshops of Madrid, run by his father, Luis Molina Pérez. He was only 15 years old. There, he carefully learnt from the old workshop masters the ancient and beautiful techniques used by the European silver and goldsmiths of yesteryear, such as embossing, chiselling, hand engraving, fire enameling and, very importantly, drawing and the roots of the classic, baroque, romanic, plateresque and gothic styles. Very soon he was already designing and hand crafting fine ecclesiastical silverware that was actively sold throughout the provinces of Spain.

The years that followed the war were very hard, and this moved him to migrate, aged twenty-four with his wife and 2 year old son to Ecuador in 1949 and to establish himself with a small silversmith workshop in Quito, Ecuador.

His reputation rapidly grew inside the active Christian Community of South America due to his everlasting perseverance, the quality of his totally hand crafted sacred vessels and his personal and professional service. Before he returned to Spain during the mid 1950's, his one-man workshop in Quito had grown steadily and he was able to establish a new workshop in Lima, Peru with around fifteen skilled workers.

Great examples of his work can still be found in that continent, all showing the purest Spanish and colonial styles.

"Mudejar" style chalice hand crafted by Luis Molina Acedo during his time as an apprentice silversmith in the Plata y Bronce workshops of Madrid, circa 1939.

Colonial-style monstrance custom built to match with the exterior of the church of Latacunga, a village of the Andes, Ecuador, 1951.

Custom baroque frame, chiselled and embossed for the portrait of the Madonna of the Cathedral of Quito, Ecuador in 1952. It is shown here carried on procession outside the Cathedral that same year.

Finally, in 1960, he was able to fulfill his dream, and founded the actual workshops in his much missed Madrid, Spain, which are synonymous for the highest possible quality that only the Christian Cult deserves and for an unsurpassed service.

By the year 1966, the staff had grown to more than 50 skilled workers, as the different religious communities continued demanding more and more quality metal ware and the old religious silversmithing workshops across Europe started fading away.

Although very hard times like the Vatican II and the Spanish Transition came after the 1960's bonanza, when many companies had to shut down their doors, the company struggled and once again survived by offering absolutely the best hand crafted sacred vessels with absolutely the best service.

Custom throne built in 1961 for carrying on Procession the Christ of the village of Montoro, Córdoba in southern Spain. It measured about 3m. in length and had to be carried by more than twenty-four people.

The spectacular increase in the exports led to the creation in the U.S.A. of a wholly owned subsidiary logistic distribution center in Warwick, Rhode Island in the year 1981. It was established with the name Artistic Silver, Ltd. and canalized all the products and services to our selected network of specialized distributors inside the North American continent. The company was awarded in 1983, 1985 and 1986 with the gold medal for its annual exports by the Chamber of Commerce & Industry of Madrid.

In 1983, Miguel Boyer, Spain's former Minister of Economy hands over Luis Molina Acedo the award given by the Chamber of Commerce of Madrid for the excellent volume of annual exports achieved the previous year.

Today, Luis Molina Acedo, S.A. is a modern, 100% family owned and operated company already in its fourth generation with a qualified staff formed by more than 90 dynamic and enthusiastic people. We only use absolutely the best materials combined with the know-how we have developed throughout the years and the most modern techniques to guarantee the highest quality standards, meeting any possible need that today's Christian Church may have for the celebration of the Liturgy.

With this heritage, we can only assure we look at the future knowing we will do our best to continue offering all our customers around the world what our founder established as the principles of this company.

His Holiness, John Paul II celebrates the commemorative Mass of his 50 years since ordination with our gothic chalice # 2392, presented to him for this very special occasion.

Of all the many custom articles we have hand crafted throughout our history, perhaps the one we are most proud of is the “Botafumeiro”, the world’s biggest censor, housed inside the Cathedral of Santiago de Compostela, Spain. The original Botafumeiro, hand wrought in sterling silver on the XV Century was stolen from Spain during the French Invasion at the beginning of the 19th century and molten into silver coins. A new Botafumeiro was built in 1851 by the Spanish silversmith José Losada, in brass, finished in silver plate to match with the original. In 1971, a further Botafumeiro was entrusted to us, a faithful replica of the XV Century original, hand crafted in solid sterling silver. It was completed and delivered personally by Luis Molina Acedo in the record time of one month. It is regularly used, altering with the 1851 brass original, majestically flying across the main body of the Cathedral and spreading the fine incense odour over the thousands of amused pilgrims.

The workshop staff who took part in the construction of the Botafumeiro proudly stand alongside their creation, just minutes before its departure for Santiago de Compostela in September, 1971.

QUALITY CUSTOM WORK & PROJECTS

The tabernacle sits majestically under the marble baldachino at the Cathedral's Chapel for perpetual adoration of the Host. The integrity of the architect's original design can be appreciated from any angle

The fact of being highly specialized in true gold & silversmith's techniques and our heritage in handling all sorts of artistic jobs in precious metals since 1939 gives us an extra edge when entrusted with your custom commission. Our skilled team of designers will develop a quality pencil drawing which will serve our experienced silversmiths to execute your exclusive piece by hand, forging and giving shape to the metals, chiselling, embossing, hand engraving, fire enamelling etc. The built piece will then follow a long process in which meticulous hand polishing, stone & enamel panel setting and a rich plating are carefully carried out to ensure first class quality standards.

Our extensive network of specialized dealers will be glad to work with you and submit your ideas to us in order to study the project, develop an exact and firm quote and create a workshop drawing to show you how your exclusive item would look. We will strive to create the precise article that will meet your specific liturgical needs and exceed your expectations.

This tabernacle, hand crafted for St. Peter's Cathedral, Belfast (Northern Ireland) is a faithful representation of our ability to hand craft all sorts of custom work in metal. The beautiful rich medieval design of the Architect, Mr. Richard Pierce was carefully studied and understood by our custom orders department, creating additional sketches to give dimension to the piece. It was then executed by our craftsmen from plain sheets of high quality brass which was heavily worked with more than 200 hours of expert labour. We are very proud of this project and for having had the chance to contribute to the great re-opening of the Cathedral, which has been intimately linked to the Catholic community of Belfast since 1866.

Mounting and adjusting of all the engraved panels, doors and other fittings. It is essential to execute this phase with the utmost perfectionism to ensure a quality product. The tabernacle is after taken apart once again and carefully polished & plated

This tabernacle was commissioned under special request in the fall of 2006 for a very special location: The Cathedral of SS Peter & Paul in Philadelphia, USA. Our custom orders department worked endlessly for around three months to build it from scratch parting from sheets of brass, making sure that it was a faithful representation of the original drawings.

Slowly, the metals were worked on with the expert hands of our master craftsmen, conforming them to the necessary shape and specifications. Specially laborious were the oval shaped dome and the delicately embossed door panel depicting the Agnus Dei. The finished product looks superb sitting majestically on the main Altar of the Cathedral and is a faithful example of our capability to handle, from beginning to end, all kinds of custom projects achieving only the highest craftsmanship and the most demanding quality standards.

Medjugorje Magna Monstrance

Custom handcrafted monstrance, dedicated to Our Lady of Medjugorje (Bosnia-Herzegovina) in 2001. With a total height over 5 feet, delicate hand construction using solely sterling silver and a blend of ancient techniques such as embossing, engraving and fire enamelling, this piece belongs to a class of its own.

The initial concept of this magnificent monstrance, conceived by Fr. Svetozar Kraljevi_ as an object to be seen from the distance by each and every one of the thousands of pilgrims that gather in the Basilica each day, was later refined and designed by the Spanish architect Ángel Arcía Álvarez and finally executed by our select team of master silversmiths, who were entrusted with the difficult task of translating the design into reality. Once finished, the piece boasted a unique mix of artistry, elegance and quality difficult to find nowadays. This is and will always remain as one of our favourite bespoke creations and we feel honoured to know that it has remained in use on a daily basis since it was delivered.

Ave Maria Tabernacle (Naples, Fl)

This is a project we have been working on for the last couple of years, and one we are most proud of. Indeed, Ave Maria Catholic University is the United States' most prominent Catholic University to have been built in the last 100 years and the tabernacle to reside in its magnificent Shrine should be only worthy of this condition.

With more than 250 lbs. of the best available metals used in its manufacture, massive overall dimensions of 63" wide x 47 tall, thoroughly handcrafted construction in solid, perfectly polished, gold plated brass including impeccably finished royal blue fire enamel over hand

wrought criss-cross panels and other features such as twelve individually set rare tanzanite stones, this tabernacle is equally matches the level of the best silversmith's creations from yesteryear which we make available to you in the XXI Century.

Custom Chalice, paten & Ciborium set for Pope Benedict's 2008 Historic U.S.A. Visit

When entrusted with this important commission, we wanted to create a unique set that was in harmony with His Holiness' vision of the Catholic Faith. Tradition, Beauty and Excellence were always priorities when designing these pieces, although special care was also put to assure that the result was not too elaborate. We chose to part from a simplified version of one of Christianity's most important pieces: The Carlo Magno chalice, a historic sacred vessel intimately linked to the origins of our religion, as Carlo Magno was appointed in 774 A.D. protector of Rome by Pope Adrian I. While the overall Romanesque lines of the original chalice are still present, the cup was simplified and only bears two pristine fire enamel medallions depicting the Pope's Coat of Arms and Archbishop Wuerl's coat of arms, thus making a clear reference to the Pope's starting point of his U.S.A. visit in Washington, D.C. The base has a further six fire enamelled medallions adorned with delicately set teardrop garnet stones among which the Washington, D.C. Diocesan Cross stands out in front. The base is ultimately adorned by a beautifully carved interpretation of Pope Benedict's two mottos: *Spe Salvi : Devs Caritas Est*. The ciborium's lid, a true work of art also features rhombus topaz stones alternating with garnet stones all of which are set to the highest jewellery standards. This exclusive set, handcrafted to the last bit in 925 sterling silver is a further testimony of our capacity not only to execute, but also to design and develop unique sacred vessels to fit your Liturgy, fulfilling your specific needs.

QUALITY RESTORATIONS

Having restored through the years virtually any kind of liturgical metal ware, we have the expertise necessary to carefully dismantle and restore every component from your valued sacred vessel to leave it in "as new" condition, as per its original specifications. We can restore all sorts of antique artefacts maintaining the old patina finish. We can also duplicate any piece or component that may be beyond repair condition using the same metal or upgrading to sterling silver. Bygone techniques like cloisonné fire enamelling, hand chiselling & embossing, artistic hand engraving are our specialties so you can rest assured we will thoroughly restore your valued piece without altering any of its original features.

It is common that very valuable pieces are poorly restored and altered through the passing of time, thus losing their identity. Consequently, we believe that proper restoration is essential to maintain the vast Christian heritage left from the past.

From a set of cruets to a big tabernacle you can entrust us with its complete, professional restoration.

Before: This beautiful German chalice dating from the early 1900's was in an original but unfortunate state. Had some of its enamels chipped off, and was missing some stones. It was also croked and was missing its inner core that held it up together.

After: After meticulous stripping, all the pieces were removed, inspected and, if missing, duplicated. All fire enamel work was restored and it was fitted with a proper inner core. It was then hand polished, buffed and plated in 24 kt gold thus looking as good as the first day it was built.
